ACIS - 419/88  
11 May 1988

25X1  
MEMORANDUM FOR:  OCA  
FROM:  ADC/ACIS  
SUBJECT: Impact of Aspin Amendment

25X1  
1. We have reviewed the Amendment to the Defense Authorization Bill  
officed by Congressman Aspin and believe it will have minimal impact on  
manpower and resources within the Intelligence Community.

25X1  
2. The requirement apparently is a one-time effort and would engage the  
various arms control staffs and entitites within US Intelligence in preparing  
a paper for DCI signature. We believe this could be accomplished well within  
the alotted six months' timeframe.
